EXPERIENCE

2025 JUNE– NOW

SAP QM FUNCTIONAL, PT. TRIAS SENTOSA.TBK

I'm working with ERP software named SAP (System Application and Processing) as SAP QM Functiona. As a SAP QM, I am responsible to designing, implementing, and optimizing the SAP QM module to support a company's quality management processes. This includes gathering requirements, configuring the system, integrating it with other SAP modules, and providing support to end-users.

Job Desc :

- Gather requirements and propose the solution in the system related to the business needs.
- Configure & create business process flow related to the System.
- Provide solutions according to SAP business process in solving daily transaction problems.
- Collect, Analyze, Design, Testing & Training User Requests for system development.
- Manage Project Executions according to SAP Activate Methodology.
- Analyzing transactional data to support management decisions.

2019 SEPTEMBER– NOW

SAP ABAP DEVELOPER, PT. TRIAS SENTOSA.TBK

I'm working with ERP software named SAP (System Application and Processing) as SAP ABAP Developer and SQL Developer. As a SAP ABAP Developer, I am responsible to created or provided by SAP's internal functional consultant based on RICEF or functional specification, I write code using the ABAP programming language until it becomes a program that can be used.

Job Desc :

- SAP Business Improvement Full Life Cycle, develop the program according to the WRICEF.
- Liaise with functional to meet business requirements.
- Optimization code for handling huge data.
- Create technical design.
- Help functional team to investigate stories about standard transaction.
- Develop and maintain SAP FICO, MM, PM, PP, QM and SD
- ABAP Skills: BDC, BAPI, BAdI, Smartforms, etc.
- Debug and SQL trace to solve issues.
- Interfacing Download SAP to Other Platform.

List Project that I Participated :

- **2025 NOVEMBER – NOW**
  SAP DATA ARCHIVING IMPLEMENTATION – DATABASE OPTIMIZATION & SYSTEM PERFORMANCE IMPROVEMENT, PT. TRIAS SENTOSA.TBK

  Implemented SAP data archiving to reduce database growth, improve system performance, and optimize storage utilization using T-code SARA SARI. The initiative ensured faster batch processing, more efficient backups, and increased system stability. Archiving also supported legal/audit compliance by retaining historical data according to required retention periods while keeping the production system lean. This activity prepared the system for future upgrades and minimized operational risks caused by oversized tables and long-running jobs. I have the responsibility as SAP ABAP, responsible to do the configuration to archiving & system performance improvement.

- **2025 JULY – NOW**
  SAP ENHANCEMENT BARRIER INSPECTION AND PRODUCT TRACEABILITY, PT. TRIAS SENTOSA.TBK

  There is a request from PT TTE to be able to create a system requires a pending report for goods receipts that have not yet been inspected that can automatically rate their product worthy or not (Usage Decision) based on the Result Recording results with different calculation. In this project, I have responsibility as SAP ABAP & QM whose job is to do development programs to simplify transactions for QM Module (Result Recording, Usage Decision) in TTE Company (Using BAPI or BDC).

- **2025 SEPTEMBER – 2025 NOVEMBER**
  SAP ENHANCEMENT JOIN TRANSACTION JUMBO ROLL, PT. TRIAS SENTOSA.TBK

  The company will conduct subcontract transactions on the new production line and require adjustments when there are new conditions where semi-finished goods (jumbo rolls) transactions can be joined. This can reduce transaction and waiting times, making work more efficient as transactions do not need to be repeated. I have the responsibility as Project Manager also to do programme development on PP & ABAP Modules.

- **2025 JULY – 2025 AUGUST**
  SAP ENHANCENMENT AUTOMATIC SO CREATION, PT. TRIAS SENTOSA.TBK

  The company will be doing subcontracting transactions in the new production line and requires adjustments to the existing and new programmes. The new request is that when the production transaction is complete, the program will automatically generate a Sales Order so that it can be immediately packed by the user, which can speed up sales and delivery transactions because the PPIC that generates sales orders does not work in shifts. I have the responsibility as Project Manager also to do programme development on PP, SD & ABAP Modules.

- **2025 APRIL – 2025 JUNE**
  SAP SUBCONTRACTING FOR NEW PRODUCTION LINE LAMINATOR #2 #3, PT. TRIAS SENTOSA.TBK

  The company will be doing subcontracting transactions in the new production line and requires adjustments to the existing and new programmes. I have the responsibility to do programme development on PP, SD, MM & ABAP Modules.

- **2024 NOVEMBER – 2025 APRIL**
  SAP NEW PRODLINE IMPLEMENTATION FOR LAMINATOR#2 #3, PT. TRIAS SENTOSA.TBK

  There was a change in the taxation system in the country and the programs needed to adjust the program and configuration to support the change. In this project, I have the responsibility as SAP ABAP responsible to do the programme upgrade for SD module.

- **2025 JANUARY – 2025 MARCH**
  SAP ENHANCENMENT FOR CORETAX, PT. TRIAS SENTOSA.TBK

  There is a 12% tax ('PPN') change in the country and the programs need to adjust the programs and configurations to support the following changes. In this project, I had the responsibility as a SAP ABAP responsible for performing the programme upgrade for the SD module.

- **2025 JANUARY**
  SAP ENHANCENMENT FOR PPN 12%, PT. TRIAS SENTOSA.TBK

  There is a 12% tax ('PPN') change in the country and the programs need to adjust the programs and configurations to support the following changes. In this project, I had the responsibility as a SAP ABAP responsible for performing the programme upgrade for the SD module.

- **2024 JANUARY – 2024 NOVEMBER**
  SAP ENHANCEMENT FOR NEW SBU, PT. TRIAS SENTOSA.TBK

  Because there are many lines in the company and the finished goods produced by one line can be used as input in another line, the production line that is used as input is not counted as profit, and is counted as loss. Then as a solution, before the transaction in the production line, if the input comes from another line, it is done material to material and the price difference will be counted as internal sales. In this project, I have responsibility as SAP ABAP whose job is to do enhancement program to simplify transactions for Material to Material (Using BAPI or BDC).

- **2023 OCTOBER– 2023 DECEMBER**
  SAP ENHANCENMENT FOR PAPER CORE USAGE IN SLITTING PROCESS, PT. TRIAS SENTOSA.TBK

  There is a new business process request to add new batch characteristics because there is a new identity (New / Old Packing) to make packing efficiency. In this project, I have responsibility as SAP ABAP whose job is to do add new characteristic master data in CL02 and CT04. Also we must develop programs to cover a new characteristic Packing.

- **2023 JANUARY– 2023 SEPTEMBER**
  TTE SLIT ROLL INSPECTION AND TRACEABILITY, PT. TRIAS SENTOSA.TBK

  There is a request from PT TTE to be able to create a system that can automatically rate their product worthy or not (Usage Decision) based on the Result Recording results. In this project, I have responsibility as SAP ABAP whose job is to do development programs to simplify transactions for QM Module (Result Recording, Usage Decision) in TTE Company (Using BAPI or BDC).

- **2022 JULY– 2022 DECEMBER**
  DIGITAL BOARDROOM, PT. TRIAS SENTOSA.TBK

  This project is a request from management to display visualisation with more dinamic of SAP Sales data. In this project, I have responsibility to do development programs SD Module to display data based on the RICEF that has been created, where the data is GP data from our company.

- **2022 JANUARY – 2022 AUGUST**
  SAP NEW PRODLINE IMPLEMENTATION FOR CPP#1 & OPP#7, PT. TRIAS SENTOSA.TBK

  The company expanded its production line and required adjustments to the programme. In this project, I have responsibility to do program development in MM & ABAP Module where I create a more dynamic program concept because the previous program required to make program changes (static) every time there are new production line implementation.

- **2022 APRIL – 2022 JUNE**
  REPORT CAPITAL EXPENDITURES (CAPEX), PT. TRIAS SENTOSA.TBK

  This project is a request from management to obtain financial statements, expenditure allocated to assets that will provide economic benefits called Capital Expenditures. In this project, I have responsibility to do development programs FICO Module for the costs incurred by the company to purchase, maintain and repair fixed assets/long-term assets.

- **2021 SEPTEMBER – 2022 AUGUST**
  BUSSINESS ANALYTICS (OLAP 2.0) - PRODUCTION REPORT, PT. TRIAS SENTOSA.TBK

  This project is a request from management to display visualisation (Power BI) of SAP Production data. In this project, I have responsibility to do development program MM and PP to display prodution data to be downloaded to SQL and displayed to Power BI.

- **2021 MARCH – 2021 AUGUST**
  BUSSINESS ANALYTICS (OLAP 2.0) - SALES REPORT, PT. TRIAS SENTOSA.TBK

  This project is a request from management to display visualisation (Power BI) of SAP Sales data. In this project, I have responsibility to do development program SD Module to display sales and GP data to be downloaded to SQL and displayed to Power BI.

- **2020 SEPTEMBER – 2021 MARCH**
  REPORT SUBCONTRACTING INTERCOMPANY, PT. TRIAS SENTOSA.TBK

  In this project, I have responsibility as SAP ABAP whose job is to do development programs to simplify transactions MM Module for Inter Company (Using BAPI or BDC).

- **2019 NOVEMBER– NOW**
  HELPDESK, PT. TRIAS SENTOSA.TBK

  In this caset, I have the responsibility to do development programs to solve problem with SAP ABAP Program.

2019 OCTOBER– NOW
SQL DEVELOPER, PT. TRIAS SENTOSA.TBK

In this company, I'm alsi working as SQL Developer. I write code using SQL programming language with SSMS (SQL Server Management Studio) on-demand to help them get some coherent data. I am responsible to created or provided by SQL Program from functional specification, I write program reporting, transaction, tables, view and store procedure.

List Project that I Participated :

- **2019 NOVEMBER– 2020 MARCH**
  WASTE MANAGEMENT SYSTEM, PT. TRIAS SENTOSA.TBK

  In this project, I have the responsibility to do development programs to conduct transactions and report company waste data (Table, View and Stored Procedure).

- **2021 SEPTEMBER – 2022 AUGUST**
  BUSSINESS ANALYTICS (OLAP 2.0) - PRODUCTION REPORT, PT. TRIAS SENTOSA.TBK

  In this project, I have responsibility to do development program Tables, Store Procedure and View to display prodution data to be downloaded to SQL and displayed to Power BI.

- **2019 NOVEMBER– NOW**
  HELPDESK, PT. TRIAS SENTOSA.TBK

  In this caset, I have the responsibility to do development programs to solve problem with SQL Program (Table, View and Stored Procedure).

2018 AUGUST – 2018 SEPTEMBER
INTERN, PT. PELABUHAN INDONESIA III (PERSERO)

PT Pelabuhan Indonesia (Persero) is a company engaged in logistics, especially port management and development. In this project, I have the responsibility to develop a website program to manage the company's assets.
